

SHARVI BHAVSAR

DATA ANALYST | WEB DEVELOPER

Ahmedabad, Gujarat, India | sharvibhavsar12@gmail.com | +91 7990049150

GitHub: <https://github.com/sharvibhavsar>

LinkedIn: <https://www.linkedin.com/in/sharvi-bhavsar-914344344>

PROFESSIONAL SUMMARY

Motivated **Computer Science** undergraduate specializing in **Data Science, Analytics,** and **Web Development** with hands-on experience in **data cleaning**, exploratory data analysis (EDA), and basic **machine learning** model development. Proficient in **Python, SQL,** JavaScript, and database technologies including **MySQL** and **MongoDB**. Experienced in transforming raw datasets into meaningful insights and building data-driven applications. Currently expanding skills in machine learning and predictive analytics through practical projects.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, HTML5, CSS3, SQL, Java (Basic), C (Basic)

Data Science & Analytics: Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Feature Understanding, Dataset Preparation

Machine Learning (Foundations): Supervised Learning Basics, Model Training, Evaluation (Accuracy/Performance), Scikit-learn (Basic)

Databases & Tools: MySQL, MongoDB, XAMPP, Git, GitHub, VS Code

Visualization and libraries: Pandas, NumPy, Matplotlib, Seaborn

Web Development: Front-End Development, REST APIs, DOM Manipulation, Responsive Design, Backend Basics

UI/UX Design: Figma, Canva, Wireframing, Prototyping, User-Centric Design

EXPERIENCE

Data Science Intern

iStudio | February 2026- March 2026

- Cleaned and analyzed datasets to identify patterns and trends
- Assisted in building machine learning models for prediction tasks
- Used Python, Pandas, NumPy, Scikit-learn

PROJECTS

Machine Learning Dataset Analysis & Classification Model

- Cleaned and analyzed structured data, engineered features, and built a classification model to predict outcomes.

- Tech Used: Python, Pandas, NumPy, Scikit-learn, Matplotlib.

Project Link: <https://github.com/sharvibhavsar/ML-logistic-regression>

MindSpace – Mental State Detection Chatbot & Assessment Tool

- Developed a Python-based NLP chatbot and quiz system to assess user mental state levels through responses.

- Tech Used: Python, NLP (Basics), HTML, CSS, JavaScript.

Project Link: <https://github.com/sharvibhavsar/MindSpace>

PlanMyTrip – Travel Planning Web Application

- Built a full-stack travel planner with user input forms, trip storage, and dynamic UI connected to MongoDB database.

- Tech Used: HTML, CSS, JavaScript, PHP, MongoDB.

Live Project: <https://planmytrip-steel.vercel.app/>

CERTIFICATIONS (Relevant & Completed)

- **AWS Developer Training** – Amazon Web Services, Infosys Springboard
- **Python Programming** – Coursera and Infosys Springboard
- **Data Analysis with NumPy and Pandas** - Infosys Springboard
- Introduction to Aircraft Design – Alison

EDUCATION

Bachelor of Engineering in Computer Science SAL Institute of Technology and Engineering Research (Affiliated with GTU) | **2023 – 2027** (Expected)

WORK STATUS (For Internship Applications)

Actively seeking a Winter 2026 Internship opportunity in Web Development or Data Analysis. Completed multiple academic and personal projects demonstrating data analysis, web development and UI/UX.
